Crèche

INKANYISO CRÈCHE PROJECT

Thanda is committed to supporting the youngest members of one of its neighbouring Zulu communities through the Inkanyiso Crèche, situated in the Esibhojeni area, close to the reserve. Assisted by donations from guests, Thanda built the crèche building including water tanks, fencing for the playground, jungle gym and solar power, and also sponsors the teachers, teaching materials, day to day running and feeding scheme. The crèche has approximately 50 children aged between two and four years.

There are three dedicated teachers, who look after the children for three hours a day, assisting many working families in the area. Early Childhood Development in South Africa is in crisis, with a shortage of teachers and adequate training facilities. The commitment of the teachers, together with support from Thanda and donors, help to play a crucial role in addressing this need.

COMPLETED PROJECTS:

The following projects have been completed to date:

- Animal posters
- Construction of building
- Crèche signs
- Educational posters
- Fence, gates and locks
- Jungle gym
- Guttering
